ABOUT COMPANY

In 2013, **IBRAHIM BIN JIBREEN CONTRACTING COMPANY** agreed with a joint venture and sub-contractor of Al Esnad House Group and took control of the Electro-Mechanical work for KAFD under the supervision of Saudi Bin Laden as the main contractor. And in 2014, Ibrahim Bin Jibreen took control the partnership and competing among top contracting companies in the kingdom with a very minimal workforce. The General Manager opened and institutionalized **IBRAHIM BIN JIBREEN CONTRACTING COMPANY**.

Widening the company's construction network in the kingdom, additional manpower was immediately mobilized to sustain the fast-growing project demand from the Government and Private sector. i.e. The King Saud University, King Abdullah Financial District, National Guard, Alinma Bank, Olaya Twin Tower, KFAH Car parking Project, Kindergarten School Building, and many more, and other top companies, especially in the industrial field, wherein we have most of our clients.

IBRAHIM BIN JIBREEN COMPANY, as we are today has completed numerous Projects in just a short period of operation. All this became possible because of our professional staff's constant supervision and thorough management of our projects, whose expertise contributed a lot to Construction and Engineering.

IBRAHIM BIN-JIBREEN COMPANY, now has 2 main divisions, which are as follows:

1. Electro-mechanical Division, and
2. Pre-engineered Division.

These divisions work together or individually in various projects under close and proper supervision..
